## **GO FORWARD**

### **Bowling Green State University**

We are happy to note the growth of the university each year and this year the exceptional increase in enrollment is gratifying to us. May we make the acquaintance of the new students and once more greet those who have attended college here in past years.

## **SECOND TO NONE**

THREE MORE BUILDINGS HAVE BEEN ADDED TO THE PHYSICAL EQUIPMENT OF BOWLING GREEN STATE UNIVERSITY PROVIDING HER WITH A PHYSICAL EDUCATION PLANT WHICH IS SECOND TO NONE IN THE COUNTRY.

WE ARE PROUD OF THE PART WE PLAYED IN THEIR CONSTRUCTION.

## **Meat From The Electric Oven**

You, too, will be an expert meat cook with an electric range. It used to be quite a trick to turn out a roast that was perfectly browned, and still juicy and tender. But now, with your electric oven to boss the job, it's simplicity itself. All you have to do is prepare the meat, and put it in the oven. The moist, controlled heat takes care of the browning and basting.

## We Continue To Grow

Bowling Green State University starts her 26th year with a record registration of 1,425 students and no small part of that is due to the rapidly expanding physical plant.

The opening of school observed the first use of the new Men's Dormitory named in honor of Dr. Clayton C. Kohl, beloved of all who knew him and his name now immortally honored in a fine monument to youth. This structure houses 162 men and there is no doubt but that the facilities thus offered make the university more attractive to men.

Now for the first time is a suitable gymnasium available for the exclusive use of the women of the campus in the fine new building dedicated to that purpose. Up to the present the co-eds have been jammed into such inadequate quarters for physical education that it is difficult to imagine how they accomplished what they did. Now no school in this part of the country can pride themselves on better facilities for Physical Education for Women.

The show-place of the campus is the beautiful Natatorium, located between the Men's and Women's Gymnasiums. Perhaps Bowling Green enthusiasts are bursting with so much pride that they boast a little more than they ought about it, yet there are few authorities who have seen it who do not declare the place one of the finest that they have ever seen anywhere.

All these facilities and more unite to provide Bowling Green with increased facilities for greater good to a greater number of citizens than she has ever before provided. This fall's increase in the student body may indicate that the second quarter of a century for Bowling Green may see her take a place as one of the largest and finest educational institutions in Ohio.

# PLAYING IT SAFE

*"With the ball inside your own thirty yard line, kick on third down."*

This is one of the sound principles of football strategy. It doesn't pay to take the unnecessary chance of a fumble or a blocked kick, deep in your own territory.

When you look for a bank to entrust with your money, you want an institution that is run on sound principles of banking practice that have been established over the years.

You want a bank that will be safe, not spectacular.

Our steadfast devotion to these principles of sound banking practice is responsible for the complete confidence which the community places in us. It has made possible our contribution to its growth and development.

**THE BANK OF WOOD COUNTY CO.**
